SUMMARY

Information Technology graduate with experience in digital transformation initiatives, technical documentation, and web development. Contributed to compliance activities aligned with Digital Government Authority standards and participated in the development of automation solutions within educational environments. Seeking opportunities in IT, digital transformation, cybersecurity, or technology-related roles.

EDUCATION

Bachelor's Degree of Information Technology
Islamic University of Madinah. Madinah, SA

Obtained: May 2026

WORK EXPERIENCE

Islamic University of Madinah, Madinah, Saudi Arabia

December 2025 – May 2026

Digital Transformation Trainee – Digital Transformation Department.

- Supported the Digital Transformation Department in preparing and organizing documentation required for compliance with Saudi Digital Government Authority (DGA) standards.
- Contributed to the development and submission of evidence files related to key assessment areas, including Innovation, Research, Quality, and Digital Excellence.
- Assisted in collecting, reviewing, and preparing documentation using standardized templates aligned with government digital transformation frameworks.
- Participated in the management and organization of a large volume of compliance and assessment documents for institutional digital maturity initiatives.
- Supported the preparation of files and documentation for official digital transformation evaluations and submissions.
- Completed 200 academic training hours as part of the cooperative training program and continued contributing on a voluntary basis beyond the required period.

Graduation Project

Graduation Project: Haram Educational Management System

- Developed a web-based platform for managing student and instructor leave requests and administrative processes.
- Designed a database and identification system to manage Quran recitation chains (Isnad) through successive generations of scholars and reciters.
- Implemented an automated tree-generation and Ijazah certificate system that displays each student's recitation lineage.
- Participated in system design, web development, database management, testing, and deployment.
